1/31/19

**2**

**Spelling Bee**  
Gr. 5-8  
January 29th

**3**

**Preschool Messy Monday**  
2/4/19

# General School Updates

## **5-8th Grade Spelling Bee - Tuesday, January 29th**

The 5-8th graders of our school will be participating in a spelling bee on Tuesday, January 29th at 1:00 P.M. Parents and other family members are invited to attend. The competition will take place in the fellowship hall.

## **Sledding Days**

Now that we have snow on the ground again, we should be able to resume our weekly sledding days. Students are invited to bring their sleds to school on the days that their classroom will be on the sledding hill. Grades 3-5 will sled every Monday, grades K-2 will sled every Wednesday, and grades 6-8 will sled every Thursday as long as the wind chill and weather permits this to take place!

## **Enrollment Plans for the 2019-2020 School Year**

A survey was sent home this past week via email and hard copy regarding family enrollment plans for next school year. With the second half of the year now underway, our faculty and Christian Education Committee would like to begin making plans for next school year. Please fill out this survey and return it to school by Friday, February 8th. We would love to continue partnering with your family in future school years in providing for your children not only an outstanding academic education, but also a chance to daily grow closer to their Savior, Jesus. Thanks for your help with this planning!

# Little Lambs Preschool Updates

Over the next few weeks we will be learning about Minnesota.

## **Week of January 28th - February 1st:**

**Letter:** "Ss"

**Color:** White

**Shape:** Oval

**Bible Story:** Jesus Helps His Friends Catch Fish

**Memory Treasure:** "Preach the good news." Mark 16:15.

## K-2 Classroom Updates

We loved being able to get out in the snow on Wednesday. Sledding down the hill was a blast! We were glad we could get outside before it got cold and windy! Brrrr!

We are looking forward to next week as Miss Cody starts teaching math and also our Bible lesson. We have been learning a lot about subtraction in math. We are excited to get to show Miss Cody what we know.

## 3-5 Classroom Updates

Grades 3-4 are enjoying watching bacterial slime grow! Our class science project is going well. We are learning the many steps of preparing an effective science fair project. While we practice scientific methods, we also learn about photography, doing research, using spreadsheets and presentation software, and we learn to work together as a team. Fifth graders each prepare a science project of their very own. Watch for those projects on display in March.

## 6-8 Classroom Updates

This past week we began a new novel in reading class titled: Lincoln: A Photobiography. This will be the first non-fiction book we have read together in class. This book is packed full of interesting information about the life and presidency of Abraham Lincoln. We will learn about his life that was often filled with many hardships and challenges. We will also gain more insight into the Civil War era that we are beginning to study in Social Studies class in grades 7-8.

The 6-8th graders on the Math Counts team will be participating in the official Math Counts meet at Mankato State University on Friday, February 1st. Unlike our last practice meet, we are unable to take the entire class along due to the team size limit being 10 students. Since we did very well at our recent practice meet in New Ulm, we are excited to see how we fare in the competition this next week!
